777-200 & 777-200 IGW Component Locator Guide

GE Engine

INTRODUCTION

PURPOSE

This guide is one of the training publications prepared to help personnel with 777 airplane maintenance. This guide combines and coordinates three kinds of component information on color coded pages: INDEX (yellow), ACCESS (pink), and RECOGNITION (blue). Each section provides the following component location data:

- INDEX - Component listing in ATA 100 chapter reference designation and Maintenance Manual chapter/section reference data.
- ACCESS - Component access/opening locations, dimensions and areas, principal dimensions, station diagrams, and zoning diagrams.
- RECOGNITION - Component's location/appearance.

The COMPONENT LOCATOR GUIDE is intended to provide a quick and convenient reference to find a particular maintenance manual reference, principal dimension, station number, zone location, exterior/interior access panel, and component recognition/identification view. The basic format of the 777 Component locator Guide is explained on the following pages.

THIS BOOK REFLECTS A GENERIC AIRPLANE CONFIGURATION AND WILL NOT BE REVISED

NOTE: THIS HANDBOOK IS FOR TRAINING PURPOSES ONLY. NO MAINTENANCE ACTION SHOULD BE TAKEN AS A RESULT OF INFORMATION CONTAINED IN THIS HANDBOOK.

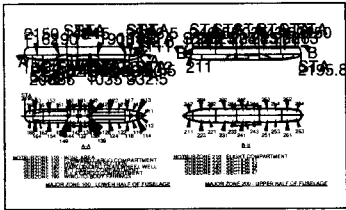

This handbook has been prepared by the Customer Services Organization of
Boeing Commercial Airplane Group, Seattle, Washington
Published by Maintenance Training
April 1997

- ① FIND MAINTENANCE MANUAL (ATA NUMBER) CHAPTER SUBJECT (SEE WHITE INTRODUCTION PAGE 3)
- ② USING MAINTENANCE MANUAL SUBJECT (ATA NUMBER) GO TO CORRECT INDEX (YELLOW) PAGE
- ③ FIND THE COMPONENT BY TYPE AND COMPONENT NAME (LISTED ALPHABETICALLY)
- ④ NOTE THE APPLICABILITY OF THE COMPONENT TO THE AIRPLANE VERSION (-200, -200IGW, OPTIONAL, ALL)
